About   State by State   News   **FIND YOUR COURSES**

For Teachers, Graduate Schools, and Concurrent Credit Coordinators to Accelerate Dual Credit Credentialing

UNIVERSITIES

Midwestern universities can list graduate courses they have developed for high school teachers seeking additional coursework to help them meet instructor qualification expectations for teaching college-level courses.

SIGN UP

TEACHERS

High school teachers who teach or aspire to teach college credit-bearing courses in high schools can use Graduate Credit Quest to find graduate courses offered by universities across the Midwest.
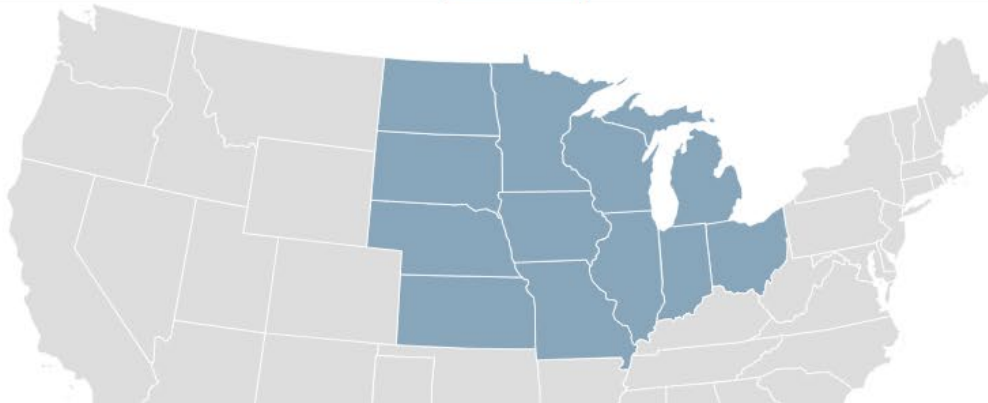

SIGN UP

CONCURRENT ENROLLMENT PROGRAM COORDINATORS

Individuals who work for colleges offering concurrent enrollment programs can use this site to connect with the teachers they manage. Coordinators or liaisons can receive inquiries from teachers about the courses they wish to take.

CSCI 601G   Computer Science   Fort Hays State University

Advanced Programming

Course Information

This course will take a deep dive into several advanced concepts of programming and explore larger-scale application development using the language. Students will learn system programming, classes and objects, Persistence and Databases, Advanced Data Handling, GUI programming, and covering some of the fundamental topics in more detail and adding new ones. At the end of this course, students will have the necessary tools to start digging into other areas of specialization. The student is expected to have a sound background in programming.

University: Fort Hays State University
Field Of Study: Computer Science
Course Number: CSCI 601G
Modality (Type): Online
Start Date: 01/21/2025
End Date: 05/16/2025
Credits: 3

Additional Information

With a universal online graduate tuition rate of just $338.62/credit hour, Fort Hays State University offers the best value in higher education anywhere!

Related Courses

Teacher Benefits to creating a user account:

- Making and retaining course selections
- Sharing course listings with Advisors, Supervisors, Peers, etc.
  All the user needs is the recipient's email address
- Organizing a legacy set of lists that can be recalled later
  To accelerate the next iteration of course searches

Coordinator or Advisor Benefits to creating a user account

- Creating suggested courses for Teachers under advisement
- Sharing lists with teachers, dept. chairs, provosts, etc.
- Create a record of advising effort, teacher effort for use in
  meeting Accreditation thresholds.

University's creating a user account

- Market graduate courses to Dual Enrollment teachers
  who are actively researching course options
- Manage course listings, editing as conditions change
  and publishing new course offerings at will.

5. Save the Excel sheet as a Comma Separated Value or CSV file. This option shows as a drop-down in Excel for saving a file. Any CSV format on the list will work.

6. Return to the exporting page on GCQ. Click the "browse files to export"; this will take you back to your file listing where you can select the CSV file and double-click or select.

7. The file will automatically transfer the information to your university's database.

8. Return to your "Courses" on the left-hand border menu and verify a sample of the courses listed from your CSV file.

9. Done.

Page also had field of information definitions, and a tutorial video

Q&A

- Is there a cost for users of the GCQ?

- How does the GCQ relate to HLC credentialing recommendations?

- Does the GCQ complement current advising/coordinating/recruiting of dual enrollment teachers or – from the university user perspective, how can the GCQ complement student recruitment to graduate programing?

- Can we track visitor traffic to the site and to unique university content?

https://graduatecreditquest.org/
